What Happens Next...

The process for handling each investigation varies case by case. We have included some general guidelines you could expect.

Reports: After a deputy leaves the scene of an incident, he/she will most likely complete a report describing the details of the situation. Reports then go through an approval process by Supervisors and the Records Division to ensure quality and accuracy. Reports cannot be released to the public until it has reached the final approval stage. This process may take several days. In on-going/active investigations, reports will most likely NOT be available until the investigation is complete.

Detectives: Not all cases are assigned to the Detectives Division!! If your case is assigned to a Detective, you should receive a call from someone to advise that they will be working on your case. This process may take at least a week. If you have any questions, please feel free to contact the Victim Services Unit.

Arrests/Warrants: Arrests are not always made at the time of an incident. If an arrest warrant must be written, it takes time to research and write before it is submitted to the District Attorney's office for review, and then to a judge for final approval.

Protection Orders: When an offender has been arrested in a crime involving Domestic Violence or Sexual Assault, a protection order is automatically activated. However, the offender must appear in front of a judge to be informed of the restrictions listed in the protection order before it becomes fully active. If one is not automatically granted, you are welcome to go to the county court to apply for a Civil Protection Order.

DA Victim/Witness Unit: If an offender has been arrested or charges have been filed against the offender, please contact the District Attorney's Victim/Witness Unit at 303-659-7735 so they can assist you with any upcoming court proceedings.
